EXPERIENCE

Senior Software Engineer

Pace Wisdom Solutions

07/2018 - Present Mangalore

Internship at PACEWISDOM (3 months)

I am thrilled to be part of the highly skilled engineering team, passionately driving the enhancements of a product that ensures absolute certainty to investors.

- Building highly scalable, top-notch solutions
- Taking part in technical decision-making for product development
- Converting design mock-ups to web applications
- Requirements gathering and solution implementation for complex business problems

EDUCATION

M.Tech in Power Electronics

St. Joseph Engineering College

2013 Mangalore

B.E in Electronics and Communication Engineering

Mangalore Institute of Technology & Engineering

2009 Moodbidri

SSLC

Rotary English Medium School

2007 Moodbidri

PROJECTS

Delhi Farms

https://www.delhifarms.com/

The project's goal is to establish itself as the premier platform for all real estate needs in the Delhi/NCR region, covering purchase, sale, investment, development, and re-development. This web application, developed using Next.js, React.js, Node.js, and TypeScript, has garnered significant traction, with numerous users utilizing its features to save and share queries.

Wybrid

https://https://wybrid.com/

Wybrid is a comprehensive web portal facilitating interaction between companies, working individuals, and vendors. This multifunctional platform integrates ERP software to streamline business processes. Developed with React.js, Node.js, MongoDB, and TypeScript, Wybrid offers a seamless and efficient interface for users to engage with each other and manage their operations effectively.

Nature Navigator

https://www.nature.com/research-intelligence/nature-navigator

In a landscape inundated with raw data and search-centric tools, Nature Navigator stands out by empowering users to make informed research decisions effortlessly, without relying on specialized expertise. This web application, crafted using React.js, Node.js, and TypeScript, provides a user-friendly platform for accessing valuable insights and navigating complex information with ease.

EXTRA-CURRICULAR ACTIVITIES

Blogging

Actively sharing insights on LinkedIn and Twitter helps countless job seekers with best practices to land their dream jobs.

Open Source Contributions

Contributing to open-source projects on platforms like GitHub allows me to gain valuable experience and insights from seasoned developers while making meaningful contributions to the community. Whether through code, documentation, or issue triaging, it's an opportunity to expand my portfolio and grow as a developer.

SUMMARY

Looking forward to expanding my learnings, knowledge, and skills and working towards the success of the company

- Having 5+ years total and relevant experience in the Development of Web Applications. A team player with good communication skills and an eagerness to share and gain knowledge.
- Proficiency with JavaScript, jQuery, HTML5, CSS3 & SASS.
- Experience working with TypeScript using React, React Hooks, Multi-Language, and UI Theming.
- Average understanding of developing hybrid apps using React Native.
- Basic knowledge of backend development using Node JS, Express JS, Mongo DB, and Postgres SQL. Integration of RESTful API and Firebase for backend interaction.
- Worked on popular JS libraries like TypeScript, Lodash, Axios, Redux, Saga, Material-UI, Chakra UI, PWA (Progressive Web Application), and Jest (testing library).
- Good Working Knowledge of the AGILE development model for project life cycle and work experience using Redmine in a startup.
- Effective usage of GIT as a Version Control System and to deploy. Collaborating with the Client and receiving the requirements/modifications.
- Collaborating with the UX team, Product managers, and other technical teams to create a better user experience, user interface, and web design experience
